Maybe even better than free.

Using file, you can circumvent those limits without paying to upgrade your team chat service. So try our free and simple filehosting service now. You don'tneed any special software installed to be able to download your files. You decide who you want to share your files with. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. Simply upload yourfile and share the link. The cost of that data transfer is covered by your internet service or the data plan on your phone. If only we could, we surely would! Onthe other hand, using file can actually save you money. There are no restrictions on the number of times a file can be downloaded. Why pay storage fees for afile that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Youcan give this download link to your friends by mail or instant messenger. Alternatively you can choose to share your download links on blogs, forums andsocial networking sites. No account or credit card is required to get started. When you use file, you avoid storing the file you're sending in your cloud storage ormail server. We have no file size limit. Our service is completely free for everyone. You can upload any type of file (movies, music, documents, images, zipfiles and more). Keep your files private, or send your download links only to friends or family. Your wallet will be none-the-lighter! Just so we're all 100%clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Anyfile in any format can be uploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. Just upload the file you want to share withyour friends and we send you a download link to your file. Files can be downloaded from any computer from our high speed servers. filehosting provides aneasy possibility for you to send large files to your friends. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing youmoney in data storage fees. Unfortunately, we can't make that part free.
