File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. filehosting provides an easy possibility for you to send large files to your friends. You don't need any special software installed to be able to download your files. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. There are no restrictions on the number of times a file can be downloaded. Just uploadthe file you want to share with your friends and we send you a download link to your file. Simply upload your file and share the link. You can give thisdownload link to your friends by mail or instant messenger. No account or credit card is required to get started. We have no file size limit. The cost of that datatransfer is covered by your internet service or the data plan on your phone. It is also allowed to link to the download page from websites and communities. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers to your friends device. Thisis easy, fast and reliable filehosting! You don't need any kind of premium-accounts. So try our free and simple filehosting service now. Our service iscompletely free for everyone. Any file in any format can be uploaded and downloaded for free. Why pay storage fees for a file that you just wanted to send to service of everyone have limits to the size of files that can be transferred within their apps. You decide who you want to share yourfiles with. Files can be downloaded from any computer from our high speed servers. Keep your files private, or send your download links only to friends orfamily.
