When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. So try our free and simple filehosting service now. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to your file. There are no restrictions on the number of times a file can be downloaded.
