Maybe even better than free.

If only we could, we surely would! On the other hand, using file can actually save you money. So try our free and simple filehosting service now. Files can be downloaded from any computer from our high speed servers. You can give this download link to your friends by mail or instant messenger. You decide whoyou want to share your files with. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. This iseasy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free. The cost of that data transfer iscovered by your internet service or the data plan on your phone. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers,then from our servers to your friends device. filehosting provides an easy possibility for you to send large files to your friends. When you use file, you avoidstoring the file you're sending in your cloud storage or mail server. Our service is completely free for everyone. We have no file size limit. File is free to usewith no gotchas and no hidden fees. Any file in any format can be uploaded and downloaded for free. It is also allowed to link to the download page fromwebsites and communities. You can upload any type of file (movies, music, documents, images, zip files and more). You don't need any special softwareinstalled to be able to download your files. Keep your files private, or send your download links only to friends or family. Why pay storage fees for a file thatyou just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. No accountor credit card is required to get started. Just upload the file you want to share with your friends and we send you a download link to your file. Using file, youcan circumvent those limits without paying to upgrade your team chat service.
