If they are left to sit in wet soil, their roots will rot. During cooler months, give them a good drenching and then allow the soil to dry out, before watering again. Keep soil moist but not wet during active growth in the spring and summer. Allow soil to dry between waterings in the winter. Avoid splashing water on the leaves while watering. 1 Apr 2017 17 Apr 2011 4 Aug 2018 Growing succulents indoors can be a bit tricky. However, with these simple tips youll be able to better care for your indoor succulent collection. An important thing to keep in mind is that you should water your jade plant in the regular way and then water it with the fertilizer water.
