I. FEATURES

The copier becomes ready to make copies as soon as it is turned on. When fitted with options, it provides a maximum of four paper sources.

1. **Multiple front loading and multifeed for space saving.**
 - The cassette may be slid out to the front for easy work.
 - With the adjustable cassette and the multifeed, various types of paper may be used.
2. **Office conveniences and ecology.**
 - The copier is equipped with a heating mechanism, which makes the copier ready for copying work at power-on without wait time.
 - The copier is designed compact, enabling effective use of office space.
 - The use of solar charging has proved to reduce the generation of ozone significantly (1/100 to 1/1000 compared to other Canon copiers).
 - As the pick-up mechanism, center-reference is adopted in consideration of the use of recycled paper.
 - A significant number of parts are made of plastic in an effort to promote recycling.
 - The copier is designed as a demotable type to facilitate clearing of jammed paper.
3. **Dependable high image quality.**
 - The new HQ (high-quality tone) assures faithful reproduction of solid black, text, and photos.
 - In addition to Canon's own single-component laser projection development method, the use of auto image control (AIC) ensures stable reproduction of images.
4. **Practical basic features.**
 - As many as 21 copies (A4/Letter, horizontal) may be made per minute.
 - Copies may be as large as A3(11x17) or as small as A5(14.8x21), even including postcards.
 - The A/E mechanism processes enhanced reproduction of newspapers or diazo signals.
 - Using page separator mode, a book may be copied with its left and right pages processed separately.
 - Copies may be made in ratio between 49% and 205%.
 - The zoom fine-adjustment mechanism ensures better control for faithful reproduction of originals.
 - The auto power-off mechanism helps further saving of energy.
 - The interrupt mechanism enables cutting in on a continuous copying session.
